Answering a multitude of questions—such as What should a parent do with a child who wants to snack continuously? How should parents deal with a young teen who has declared herself a vegetarian and refuses to eat any type of meat?Special Collection Stepping Stones to Caring for Our Children (SS) Stepping Stones (SS) is the collection of selected CFOC standards which, when put into practice, are most likely to prevent serious adverse outcomes in child care and early education settings. There was no one in my family at all with food allergies, so it wasn't really on my radar. My son was eating basically everything so we thought nothing of giving him any food at all, but around his first birthday we went to a Greek restaurant, ordered a sampler platter, and gave him everything we were eating. This is part 2 of transitioning your baby to table foods, since I had so much to say on the subject! In the last post, I taught you how to start off with puffs and moving to soft cubed foods like bananas and cooked vegetables, if you missed it, check it out [here](#).
